The Manitoba legislature will adjourn on Friday next for a month to give the government the fullest time to consider what action is best to be taken on the remedial order and to consult the best legal authorities as to the exact status of the province.

Sir Charles H. Tupper has resigned his seat in the Ottawa cabinet because the premier refused to appeal to the country on the policy of the remedial order in the Manitoba school case. He declined to accede to a course which would throw the question on the floor of parliament as a foot ball. Moreover he believed that if the government took the responsibility of introducing a remedial law they would be defeated in the house. Sir Hibiart told a friend that he would not approve of the Dominion parliament usurping the functions of a provincial legislature and enacting a school law, and he believes that in this stand he represents the conservatives of Canada. But whether the government was defeated or not Sir Hibiart took the broad constitutional ground, that when the government adopts an important policy like the remedial order it should obtain a verdict of the electors upon it, so that a new parliament would come to Ottawa with a mandate either to pass remedial law or leave it alone.

At a meeting held in C. M. Woodworth's office on Tuesday evening last a number of the merchants and business men organized to form a joint stock company for the purpose of erecting a flour and oatmeal mill in Edmonton. A committee was appointed, consisting of Messrs. Gariepy, Bellamy and Woodworth, to draft a prospectus. The following has been drafted.

In accordance with the provisions of the joint stock companies ordinance of the Northwest Territories of Canada, we the undersigned hereby associate ourselves together by these written articles of agreement for the purpose of carrying on the business of buying and trading in wheat, oats and other grains, and manufacturing into flour, meal and other products, and of selling or otherwise disposing of said products, and organizing a corporation for that purpose, which said corporation shall be located at the town of Edmonton in the said Northwest Territories and shall have its head office and place of business at Edmonton aforesaid; it is understood that the capital stock of said corporation is to be twenty-five thousand dollars, to be divided into shares of ten dollars each, no one person to hold more than 200 shares.

WILL THE NORTHWEST FOLLOW.

The Manitoba Government has in contemplation the introduction of a bill which will be of the very greatest importance to the farmers of that province in developing the dairy industry. The scheme, which will be properly formulated in a few days, is to bonus the private creameries or cheese factories operating or to be operated in the province, dollar to dollar to the amount of the capital invested up to \$500.

This bonus will be in the form of a loan, repayable at a small rate of interest, and the measure, when it becomes law, will no doubt have the effect desired of stimulating the energies of the farmers in the direction of properly equipping themselves with the most modern aids to successful dairying.

Edmonton Farmers

Our Company have decided to erect during the coming summer an Oat Meal Mill and Elevator at South Edmonton. We would therefore call the attention of the Farmers to the importance of raising the best varieties of oats suitable for milling and for which the highest market price will be paid. We shall also require a limited quantity of choice Two-rowed Barley. We had made arrangements for making a shipment from the coast but find the same unnecessary as the best varieties can be secured from T. W. Lines, Edmonton.

ALBERTA POLITICS.

Alberta is specially favored for the coming election in having already more than the usual number of candidates in the field, all duly nominated by convention. It is a noticeable feature of the case that the two conservative candidates have expressed no divergence of views as to the policy of the party, the only ground of difference being as to which has the best right to be its standard bearer, or rather which is the most likely to be successful. This question as to the possibility of success in a constituency which has never until the present contest put an opponent of the government in the field, and which only four years ago gave the second largest majority in Canada to the straight government nominee, shows a belief in a radical change of public sentiment. That such a change has taken place is universally conceded, and that it is more than justified is everywhere acknowledged. There is a general feeling that the interests of Alberta have been kept in the back ground—as witness the deputations which had to be sent to Ottawa from time to time from each section of the district which had anything special to bring to the attention of parliament—and that it is time to replace this system of delegations by a responsible representative in parliament, who will have a vote with which to support his views and the interests of his constituents—a vote which will be at the service of his constituents instead of at the service of his party. Personally the conservative nominees may both be very suitable and competent men,—although their respective backers evidently do not think so—but as long as their first duty is to their party and as long as that party does no better for the country than it has done during the past four years, they may well feel grave doubts as to the success of the party in the coming contest. Time was when the question of personal merit or ability did not enter into the party candidature. It is a hopeful sign when these things are considered. It shows that the people are waking up, and that the party leaders recognize the fact.

CALGARY AFTER SELF-GOVERNMENT.

A large meeting was held in Calgary, called by his worship the mayor, to discuss provincial government. Jas. Reilly speaking, referred to British Columbia which 20 years ago with a population of 20,000 moved for provincial government and thought Alberta with 40,000 should move in this direction. Manitoba had 17,000, of whom only about 4,000 or 5,000 were whites. They had no railway, no form of government but a provincial one under Riel. He said that if these provinces were entitled to provincial government when they got it, why was not Alberta entitled to it now. As to the cost of self government he quoted from the February number of the Review of Reviews, where it was shown how much Manitoba received from the Federal government, 80 cents per capita, \$50,000 for government allowance, for lands \$100,000, and Alberta should receive in the same proportion \$200,000 interest on capital account per year should be \$100,000. Thus Alberta should receive \$300,000 instead of the \$30,000 she now receives from her Territorial allowance. Manitoba's total income last year was something over \$1,200,000. He spoke of the need of independent railway competition and said that he understood the people of Lethbridge were about to take steps to have the gauge of the coal road broadened and if we had provincial autonomy we could make a connection with the transcontinental roads to the south. The following resolution was carried with cheers:

"That in view of an additional session of the Dominion parliament being held before dissolution, at which there will be given the opportunity to hear and consider the petition of any portion of the people on any matter whereby their interests may be advanced or facilitated, it is the opinion of this meeting of citizens of Calgary that a full measure of provincial government should be granted to the people of Alberta on the terms and conditions as may be expressed in the address presented to the parliament of Canada during the coming session for this purpose." Mr. Haultain was called upon, he said, anything which would tend to give more representation for Alberta would have his earnest support. The matter of railway extension was also one on which we could all unite, perhaps we would get it sometime, may be sooner by these meetings and may be by provincial autonomy. He did not think the time had come when any portion of the Territories should desire to take upon itself the burdens of provincial government. Other speakers followed all of whom heartily endorsed the motion.

The News Ottawa special says Hon. Mr. Patterson has resigned and has been appointed lieutenant governor of Manitoba.

Twenty-three Chinese vessels of war have been destroyed or taken by the Japanese since the beginning of the campaign. The estimated value of the ships and armaments being \$11,575,000.

London, March 20.—Dr. Barnardo will sail for Canada to-morrow with 250 lads under his care. One hundred Manchester Strangways home children, and 140 Scottish orphan lads also leave in a short time for Canada. These boys will probably all come to the Northwest.

ELECTION ADDRESS.

To the electors of Alberta.

GENTLEMEN.—As the nominee of the convention of Alberta liberals which was held recently at Calgary, and having been assured of a strong support by the patrons of industry in Northern Alberta, as well as at the solicitation of a large number of independent conservatives in this part of the country, I have the honor to offer myself as a candidate for the representation of Alberta in the Commons at the approaching general election. The stand which I take with the full knowledge and consent of those who have tendered me their support is that of an independent as to party, but not as to principle. On the main question at present at issue between the liberal and conservative parties, I understand that the organizations and individuals tendering me their support have done so with the wish and expectation that I would and will so far as lies in my power support the policy of a tariff for revenue as against the policy of a tariff for protection, which is the declared policy of the present government; on the ground that the protective policy discriminates unjustly against the western producer in favor of the eastern manufacturer.

Although holding strongly with the liberal party and also the patron organization on this point, I have not bound myself to either of these because I believe that the first duty of the single representative of so great a country holding such great possibilities as this district of Alberta should be to use his every energy for the further development of this country and the realization of these possibilities; as he can not if he is to be subject to restraint by the exigencies of any party. This constituency has had party representation during the past eight years,—has been represented by a member of the party in power then and now. If the results have been satisfactory, that principle should be continued. If not it should be changed. It is because I believe that this system of party representation has been gravely injurious to this district that I have consented to make the personal sacrifice involved in my candidature, and because, so far as I knew, no other person was likely to come forward to advocate these or like views.

In a region so vast and varied as Alberta it would be impossible for any man at any time to define all the points of policy that would affect each locality, therefore I do not attempt to do so here. I hope from time to time, however, in the course of the contest, to have the opportunity to discuss fully with the electors at most of the principal centres of population, all matters that may come up for discussion, in whatever shape they may appear. That such a vast region, having such a large population and such important interests should be accorded only one representative is as plain a case of injustice as is required to show the glaring failure of party representation to secure the people in even their simplest rights. The matter of railway extension and railway rates particularly in the north and the question of irrigation in the south seem to be the great questions affecting the interests of the district with which parliament will from time to time have to deal. I need not point out that while these are vital questions to Alberta, they are not party questions at all, and it is all the more necessary that your representative should be in a position to advocate your interests in regard to them in parliament without party hindrance even if he has to do it without party support.

Speaking generally I may say that I will support a policy of development for Alberta and while I will not bind myself to ask for favors for any section or interest I will bind myself to do all in my power to see that each section and every interest receives fair and equal treatment.

In conclusion I will say that although I have no personal interest to serve or ambition to gratify by entering upon this contest, yet having entered upon it in good faith I shall do all I can to win, and ask for the active assistance of every man who believes that the success of the principles which I have been selected to advocate would be in the interest of this constituency and of the country.

Respectfully Yours,
FRANK OLIVER.

FREE SAMPLES OF GRAIN.

EDITOR BULLETIN.

During the past eight years samples of those varieties of grain which have succeeded best on the Experimental Farms have been distributed on application in 3-lb. bags to farmers in all parts of the Dominion free through the mail. The object in view in this distribution has been to improve the quality and character of the important agricultural products throughout the country. This work has met with much appreciation and a considerable degree of success.

Last year I was instructed by the Honorable the Minister of Agriculture to forward, as far as practicable, two samples to each applicant, but the applications received were so numerous that on this basis of distribution all the available stock had been promised by the middle of February, and all later applicants could not be supplied.

This year my instructions are to send one sample only to each applicant, with the hope that with this limitation every farmer in the Dominion who so desires may share in the benefits of this useful branch of the work of the experimental farms.

The distribution now in progress consists of some of the most promising sorts of oats, barley, spring wheat, peas, field corn and potatoes. Already more than 7,000 applications have been filled. All farmers desiring to participate in this distribution should send in their applications early, and state which of the above named samples they would prefer, and their wishes will be met as far as practicable, until the available stock is exhausted. The grain can be sent early, but the potatoes will not be distributed until the danger of being injured in transit by frost is over. Letters addressed to the Central Experimental Farm may be sent free of postage.

WETASKIWIN.

The lieutenant governor has issued a proclamation, dated 4th March, creating the Bear's Hill public school, district No. 352, of the Northwest Territories. Logs have already been hauled for the erection of the school house which will be proceeded with at once.

It is reported that a large number of new settlers will arrive here during the summer from the States. The settlers already here think so highly of the district and give such glowing descriptions to their friends left behind that we may expect this shortly to be the most thickly settled part of Northern Alberta.

To meet the requirements of the increasing district, the town is going ahead with additions and new buildings. John West has enlarged his store and built a new office, S. D. Gould is building a large implement warehouse, H. Dietrich has built a new blacksmith and joiners shop. Our general landlord, J. Boyce, is about erecting a large hotel. We wish him every success in his enterprise.

A liberal conservative association has been formed with W. Walker as president, and John West, vice-president. The former attended the meeting at Calgary on the 20th inst. Party politics do not seem to have taken the hold upon the minds of many new settlers which is felt in old countries, and they are likely to consider the best candidate for the interests of Alberta, rather than one in the interest of their party. A number of voters will probably support our friend Oliver on this ground, who do not agree with him in politics, believing that as an old timer, thoroughly in earnest as to the interests of the district and knowing its requirements, he will have more influence for our benefit.

LACOMBE LINKS.

During the past week the following have been making preparations to build, some having started: Geo. H. Jamieson, post office; Mr. Elliott, harness shop; Jas. M. Mair, addition to bake shop.

Mr. Gourlay, brother of Mr. Dan Gourlay, arrived last week and intends to make this his future home.

Mrs. Jamieson, mother of our post master, and youngest son also arrived last week. She will settle on the quarter which has been taken up for her.

Fred Standish who has been spending two or three months at the parental home, Palmecston, Ont., has returned.

Rev. Mr. Goodman went to Calgary on Friday last and will be away for a fortnight.

Mr. Frost who has been station agent here until recently, is expected to return and take charge again next month.

It is rumored that there will be an immigrant building erected here this spring. It will be needed had enough.

It is almost impossible to get grain of any kind for feed in this locality now, and it is hoped some one will get a car in before long.

Our old friend Wm. Burns arrived on Monday's train, accompanied by his family. March 15th, '96.

COMMUNICATION.

Wetaskiwin, March 23rd, '96.

4. Purdon, house inspector and J. C. F. Brown, of Edmonton, paid our town a flying visit on Monday last, to enquire into an information laid by Frank Hamilton against B. F. Boyce, hotel keeper, for allowing games in his house. By the license act which is not allowed on the premises. He pleaded guilty and was fined accordingly. The News Ottawa special says Hon. Mr. Patterson has resigned and has been appointed lieutenant governor of Manitoba.

A dispatch from London says: Hudson Bay fur sales this year have been more favorable to the sellers than in 1894. Several grades showed enormous advances of price. Marten was doubled in value, and white fox brought 150 per centage more. The rise of marten was owing to the popularity of the collarette made of a single skin. Nearly 100,000 of these skins were sold. The company must have netted £40,000 by them alone.

There are 14,271 Indians in the Northwest Territories of whom 3,571 are Protestants, 3,183 are Roman Catholics, and 7,217 are pagans. At the Battle agency there are 339 Protestants, 109 Catholics and 484 pagans. At the Fort Peck agency there are 290 Protestants, 74 Catholics and 175 pagans. At the Crooked Lake agency there are 52 Protestants, 138 Catholics, and 384 pagans. At the File Hill agency there are 65 Catholics and 219 pagans. THE SCHOOL QUESTION.
The remedial order nicely typewritten on stamped paper and tied with a piece of narrow blue ribbon was given out at Ottawa for publication. It begins by reciting the appeal proceedings from November, 1895, and proceeds as follows:
"And whereas the 26th day of February, 1895, having been appointed for the hearing of the said appeal and the same coming on to be heard on that day and on the 5th, 6th, and 7th days of March, 1895, in the presence of counsel for the petitioners (the said Roman Catholic minority of her Majesty's subject in the province of Manitoba, and as well for the province of Manitoba. Upon reading the said petition and the statutes therein referred to and upon hearing what was alleged by counsel on both sides, His Excellency, the governor-general-in-council was pleased to order and adjudge, and it is hereby ordered and adjudge, that this said appeal be, and the same is hereby allowed in so far as it relates to rights acquired by the Roman Catholic minority under the legislation of the province of Manitoba, passed subsequent to the union of that province with the Dominion of Canada, and His Excellency, the governor-general-in-council, was pleased to adjudge and declare and it is hereby adjudge and declare that by the two acts passed by the legislature of the province of Manitoba on the 1st day of May, 1890, entitled respectively "an act respecting the department of education," and "an act respecting public schools," the rights and privileges of the Roman Catholic minority of the said province in relation to education prior to the 1st day of May, 1890 have been affected by depriving the Roman Catholic minority of the rights and privileges which previous to and until the 1st day of May, 1890, such minority had, viz: (A) The right to build, maintain, equip, manage, conduct and support Roman Catholic schools in the manner provided for by the said statutes which were repealed by the two acts of 1890 aforesaid. (B) The right to share proportionately in any grant made out of public funds for the purposes of education. (C) The right of exemption of such Roman Catholic schools from all payment or contribution to the support of any other schools. His Excellency, the governor-general-in-council was further pleased to declare and decide, and it is hereby declared, that it seems requisite that the system of education embodied in the two acts of 1890 aforesaid shall be supplemented by a provincial act or acts which will restore to the Roman Catholic minority the said rights and privileges of which such minority has been so deprived as aforesaid and which will modify the said acts of 1890 so far and so far only, as may be necessary to give effect to the provisions restoring the rights and privileges in paragraphs (A), (B) and (C) herein before mentioned. Whereof the lieutenant-governor of the province of Manitoba for the time being and the legislature of the said province and all persons whom it may concern are to take notice and govern themselves accordingly. Signed, John J. McGee, clerk of the privy council.

Those who insisted on the Bowell ministry passing such a sweeping order to Manitoba to re-establish separate school have refused to take their promises for remedial legislation and have forced a session. Parliament has therefore been summoned to meet on April 18th.—Free Press.
